

# QR CODE MOSAIC

---

YOUR BRAND, YOUR SOCIAL PAGE

CHARMING UNIQUE INTRIGANT

Everyone can create a QrCode, you can trivially print it on paper, on business cards, or in stickers, **what we offer is a unique object, entirely handmade by expert craftsmen using fine Italian marble.**

A charming object, unique in its kind, just like you.

A QR Code made of hand-cut marble blocks, an object of great decorative impact which, if framed by a smartphone, will direct you to your website or to your instagram account or facebook page. You can use it as an interactive sign or as a tool to retain your customers.

A non-invasive, beautiful technological tool, as can be a work of art made of millennial knowledge

The Mosaic QrCode is ideal for marking monuments or value building, but also perfect for commercial activities, shops, hotel and restaurants
